

Single Dial Venturi Mask

A - 3019

- Super smooth kink resistance tubing ensures uniform flowrate.
 - Smooth and feathered edge of face mask for patient comfort and reducing irritation points.
 - Adjustable elastic strip and integrated nose clip for proper positioning of mask.
 - Single Dial Venturi masks are devices that are constructed to supply oxygen or other gases to an individual.
 - There are two Oxygen diluters, one(White) for 24%, 26%, 28% and 30%, while the other (Blue) is for 35%, 40% or 50%. The appropriate percentage of Oxygen can be selected setting by the indicator of the diluter.
 - Transparent (green or white) plastic masks also leave the face visible, allowing care providers to better ascertain patients' conditions.
 - Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
 - Star lumen main tube to avoid accidental blockage.
 - Tube Length : 210cm.
 - Size : Adult & Paediatric.
 - Available with DEHP free Material.
- Sterile / Disposable / Individually Packed.
